To Whom it may Concern

Subject: Connect the Dots Learning and Development

This is to confirm that our Training and Development consultancy, TTI Global South Africa (part of a global training organisation), has used the services of Connect the Dots in support of a number of our key projects - specifically in the design and development of training materials for Fiat Chrysler Group in South Africa and also for Volkswagen Group, where we insource consultancy services.

Without any reservation I would recommend Connect the Dots for their professionalism and deep understanding of the learning arena, but also for their attitude to doing business which is always flexible, 'can-do' and extremely positive. For us they are a great organisation to partner with.

Yours sincerely

Kevin Skinner
Managing Director
TTi Global (Pty) Ltd.
